

## **Morpho, Inc. introduces Noise Reduction Technology “Morpho Denoiser™”**

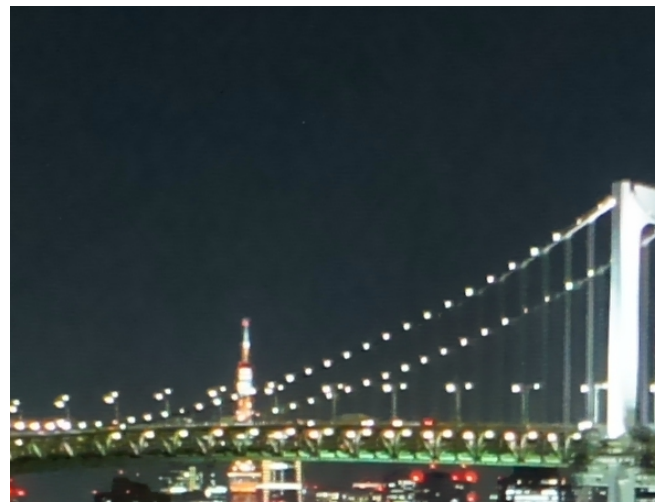

**Tokyo, Japan - October 15, 2012** – Morpho, Inc., a global leader in software image processing solutions for mobile devices, released “Morpho Denoiser™.” This product utilizes a technology which reduces noise components in the image.

### **Morpho Denoiser™**

“Morpho Denoiser™” reduces noise components from a single frame. By expanding the pixels referenced, noise reduction is performed effectively with high speed. Furthermore, it separates color and luminance components to reduce noise but keeps the color tone with details at the same time, thus generating a beautiful image.
